

## REQUEST FOR DISCLOSURE OF INTELLECTUAL PROPERTY CLAIMS

The Board of Directors of the Storage Networking Industry Association (SNIA) hereby notifies all SFF TA TWG Members and Participants that they are issuing a Request for Disclosure of Intellectual Property Claims for the SFF TA TWG specifications which are available for review on the SNIA web site at <https://www.snia.org/sffdisclosures>, listed under *Active Requests for Disclosure*.

The above specifications are hereby released for review by SFF TA TWG Members and Participants pursuant to the SNIA Intellectual Property Policy adopted by the Board of Directors on September 18, 2015 ("IP Policy"). Members and Participants are specifically referred to the IP Policy ([http://www.snia.org/about/corporate\\_info/ip\\_policy/](http://www.snia.org/about/corporate_info/ip_policy/)).

The Review Period shall be the sixty (60) day period ("Review Period") commencing on the publication date of the specifications under review. During the Review Period, Members and Participants are requested to comply with the disclosure obligations of §3.3.2 of the IP Policy (subject to the exception set forth in §3.3.3. if applicable).

Members and Participants are required to make reasonable and good faith efforts to disclose, prior to the end of the Review Period, Essential Claims (as defined in §2.6 of the IP Policy) in the above listed specifications, of which they have Actual Knowledge (as defined in §2.1 of the IP Policy). Please refer to the IP Policy for the precise definition of the referenced terms.

A Member or Participant should also disclose if it would be unwilling to license any such Essential Claims of which it has Actual Knowledge in accordance with §3.5 of the IP Policy.

Disclosure should be submitted in electronic format to the SNIA Secretary at the following email address: [disclosure@snia.org](mailto:disclosure@snia.org).

*If you have made a disclosure on a prior version of any of these specifications, you are still required to make a disclosure on the new version of the specification. Each request for disclosure issued by the SNIA is independent of all prior requests for disclosure and should be answered accordingly.*

Please be advised that the failure to make requested disclosure may have the consequences set forth in the IP Policy. If you have nothing to disclose, you need not respond to this request.

SNIA may publish the disclosures it receives to Members, Participants, third parties, and standard setting bodies, or take other appropriate action.
